LYNNC PRODUCTS

AI DYNAMIC PRICING

Optimize prices in real time to maximize profit margins, improve inventory turnover and enhance competitiveness while instantly adapting to market changes.

KEY FEATURES:

- Automatically adjusts prices based on demand and market trends.
- Clears slow-moving inventory with optimized pricing.
- Instantly responds to market changes for better competitiveness.
- Identifies optimal price points to increase revenue.
- Reduces manual effort with automated pricing updates.

ORDER MANAGEMENT

Centralize and streamline all orders on one platform to reduce errors, eliminate delays, and ensure smooth fulfillment.

KEY FEATURES:

- Consolidates orders from multiple sales channels into one platform.
- Tracks order status in real-time for better visibility and control.
- Automates order processing to minimize errors.
- Speeds up fulfillment while reducing delays.
- Seamlessly integrates with inventory and delivery systems.

MEAL SUBSCRIPTION

Transform meal planning and delivery with personalized subscription plans, seamlessly combining offerings from multiple brands to suit every customer's needs.

KEY FEATURES:

- Automates recurring orders for a hassle-free experience.
- Offers customizable subscription plans to fit customer needs.
- Ensures consistent revenue through reliable subscriptions.
- Boosts customer retention with convenience and loyalty.
- Simplifies payment management with automated billing.

FLEET MANAGEMENT

Optimize delivery operations with real-time tracking, route optimization, and performance analytics to ensure timely, cost-effective, and efficient deliveries.

KEY FEATURES:

- Tracks vehicles in real-time for optimized routing and delivery.
- Reduces fuel and maintenance costs with route optimization.
- Monitors driver performance to improve safety and efficiency.
- Ensures on-time deliveries with predictive analytics and alerts.
- Integrates with order management systems for seamless operations.

DIGITAL MENU

Enhance the dining experience with interactive, customizable digital menus that showcase offerings, update in real-time, and drive upselling opportunities.

KEY FEATURES:

- Displays menu items with high-quality visuals and descriptions.
- Allows real-time updates for pricing, availability, and promotions.
- Offers multi-language support for diverse audiences.
- Integrates with ordering systems for seamless order placement.
- Enhances upselling with suggested items and combo options.

SCAN TO ORDER

Expand your business with an intuitive online ordering platform that offers customers a seamless experience for placing orders, making payments, and choosing delivery, pickup or dine-in options.

KEY FEATURES:

- Enables customers to access digital menus by scanning QR codes.
- Allows direct mobile ordering for convenience.
- Reduces wait times by eliminating paper menus or server dependency.
- Offers personalized experiences with saved preferences.
- Integrates with POS systems for efficient order processing.

WEB ORDERING

Provides an easy-to-use online platform for 24/7 ordering.

KEY FEATURES:

- Supports multiple payment methods for customer convenience.
- Offers delivery, pickup, and dine-in options for flexibility.
- Reflects real-time inventory availability with system integration.
- Boosts sales with promotions, loyalty rewards, and upselling features.

TRUSTED BY

MOHAMMED AL SAFADI

LYNNC platform has greatly improved restaurant delivery order management. It integrates with delivery platforms, streamlines kitchen operations, and enhances overall workflow, leading to faster deliveries and happier customers.

FAISAL AL-MAKTABI

LYNNC has helped us with order management by consolidating orders from multiple platforms, allowing orders to be prioritized and sized separately. Furthermore, we can add multiple modifiers through Jahez, as the aggregator allows only one list of modifiers.

SUPPORT & TRAINING

Comprehensive Onboarding Assistance: Step-by-step guidance to get you started.

Training Resources: Tutorials, documentation and webinars to help your team maximize the platform's capabilities.

24/7 Support: A responsive team ready to resolve issues anytime.
